EDUCATION

KIST College

Bachelor of Information Technology

Kathmandu, Nepal

Expected Graduation: Dec, 2026

GPA: 3.69/4.0

Relevant Coursework: Software Engineering, Operating System, Database Management System, Data Structure and Algorithms, Computer Organization and Architecture, Programming Languages

Honors and Awards: Achieved 80% scholarship based on outstanding entrance performance

SKILLS

Programming Languages: JavaScript, Typescript, Python

Frameworks: Express.js, React.js, Next.js, Django Ninja, Bootstrap, Tailwind CSS

Technologies: HTML5, CSS3, Node.js, Git & GitHub, Docker, Postman

Database: MongoDB, PostgreSQL

EXPERIENCE

KonnectCraft (Remote)

Feb 2026 – Present

Software Developer Intern

- Delivered end-to-end CRM enhancements across **React (TypeScript)** and **Python (Django Ninja)**, building features like an email suppression banner, reply composer, and message logging to improve workflows and communication traceability.
- Resolved dashboard and form inconsistencies by aligning queries and implementing **schema-based validation (Zod, Pydantic)** with centralized input normalization, eliminating false errors and restoring metric accuracy.
- Enhanced UI robustness by fixing **date constraints**, resolving **layout overflow**, and improving **responsive behavior**, ensuring consistent usability across edge cases.
- **Optimized spam-detection** logic to reduce false positives and **streamlined code by consolidating input handling**, improving maintainability and consistency.

PROJECTS

StayNepal | [Website](#) | [GitHub](#) | *EJS, Node.js, Express.js, MongoDB, Git*

Mar 2025 - Present

- Developed a full-stack travel listing platform with multi-provider authentication, real-time booking management, map-driven property discovery, and cloud media handling across 50+ listings.

StockTradingPlatform | [GitHub](#) | *MongoDB, Express.js, React.js, Node.js, Bootstrap, Git*

July 2025

- Engineered a full-stack stock trading platform with real-time buy, sell, and portfolio tracking, JWT-based authentication, and a responsive dashboard featuring live orders, watchlists, and profit/loss visualizations.

Meetly | [GitHub](#) | *MongoDB, Express.js, React.js, Node.js, Git*

Sept 2025

- Developed a real-time video conferencing platform using WebRTC and Socket.IO, supporting group audio/video calls, live in-call chat, and end-to-end encrypted communication.

PropertyRental | [GitHub](#) | *MongoDB, React.js, Next.js, Git*

Oct 2025

- Delivered a full-stack property rental platform with Google/NextAuth authentication, map-based search, real-time messaging, multi-image uploads, and complete listing management workflows.
